MULLED WINE

ready to drink

Austrian Mulled wine

10 liter canister, ready to drink

When producing our mulled wine, we pay attention to **tradition**. We exclusively use **Austrian red, white and rosé wine** for this purpose.

We are the **only producer** to use the **traditional extraction method**: cinnamon sticks, cloves, and sugar are added directly to the wine tank, allowing the flavors to infuse naturally. Once the desired intensity is reached, the finished mulled wine is filtered.

NO artificial flavorings are used. This is, of course, noticeable in the quality.
